

Our 'why' for the year

School name

St Joseph's Catholic School Market
Harborough.

The quote we have chosen is...

"What kind of world do we want to leave to those who come after us, to children who are now growing up?"

Paragraph 160 in Laudato Si.

We have chosen this because....

We need to make sure we make the world a safer place for people to live and to have a happy life. We don't want to leave the next generation a horrible world with rubbish, green house gasses, we want a nice world to live in by litter picking and planting trees.

What Missions and Sub-missions have you chosen and how does your 'why' link to this?

Our first mission will be 'Energy', with the sub-mission focusing on 'Switch off day once a term'. Our second mission will be 'Nature' with the sub-mission being 'Wildlife Habitats'. Our final mission will be 'Food' with the sub-mission being 'Food Waste Reduced'.

We feel that the Nature topic links well with our 'why' because we are encouraging others to think about wildlife rather than the next generation. The Energy topic also links well as this we are wanting to reduce the amount of energy, we use to slow down our earth getting hotter. Our 'Food' topic will encourage everyone to think about food wastage and how we can encourage others to follow our example.
